

K5

Use of the space.

Please:

* no shoes or furniture on the dance mats. if shoes or furniture need to be used, please either take up the mats or protect them with carpet or something else, otherwise they will get damaged

* manage noise and be sensitive that this is a residential building where we can easily receive noise complaints and disturb people who have a right to the peaceful enjoyment of their homes. pass through communal corridors quietly, and keep all doors closed as much as possible. feel free to play music up to a level where we can still hear each other speaking in the space. microphones are not needed. intense noise such as loud drumming, or shouting and screaming are not suitable unless kept within a very short time frame, i.e. 5-10 minutes

* please keep activity within your allotted time slot, please consider and be sure to include time for dressing, warm up/down, socialising, etc within your schedule

* please do not touch the aerial equipment, including floor-level ropes and fixtures.

* where possible, avoid hanging out in the living area. feel free to socialise comfortably in the studio

* please pass through to and from the toilets/kitchen directly and efficiently

* activity has stopped and the space is clean, clear and empty by 9pm

* this is a non-smoking and non-drinking environment

* use electrical appliances economically

* if you want to use the wood fire, you will need to protect the mats with a rug, keep the doors of the fire closed, and clean thoroughly any ash/debris before you leave

* leave no trace, apart from your kind donations 😊

* enjoy!!!
